

THE SOLVEGLOBAL ADVANTAGE

THE SIMPLE TRUTH

The costs you don't measure are the ones that hold your business back.

YOUR #1 OVERSPEND

- Movement- and function-related conditions are the #1 health spend in business.
- Companies overspend 30–50% annually managing them the wrong way.
- That waste flows straight off the bottom line—eroding profit, productivity, and culture.

WHY THE SYSTEM FAILS

- Most MSDs begin as functional breakdowns, not medical conditions.
- Medicalization, insurance incentives, and fragmented programs inflate costs without resolving risk.

WHY SOLVEGLOBAL WORKS

- Attacks the root: movement and function.
- Provides full-spectrum MSD services — upstream risk detection and downstream recovery.
- Backed by 35+ years of field-proven results.
- Designed for any business, anywhere, anytime — multilingual, compliant, and turnkey.

STRATEGIC ADVANTAGE

Cutting overspend by 30–50% is only the start. Solveglobal strengthens profit, productivity, talent, loyalty, and competitive edge.

Consider the Risk.
